

CEILING LIFTS

C-450 & C-625

FIXED CEILING TRACK LIFT

The Prism Medical C-Series delivers innovation, affordability and quality. Ceiling lifts dramatically reduce injuries resulting from the handling of patients/residents in both institutional and homecare settings. The C-Series are designed with a full set of standard features and can be safely operated by a single caregiver. Built for quiet operation, the C-Series provides a smooth and effortless transfer which safely enhances the working conditions of caregivers. The Prism Medical C-series lift has 4 weight capacities, including the C-450 at 450 lbs. maximum capacity and the C-625 at 625 lbs. maximum load, to provide supreme flexibility in the type of patients that can be transferred. For additional flexibility, power traverse is an option.

Incredibly compact but powerful, the C-Series looks good in any setting. With features like a digital display and programmability, a host of standard safety features, and a modular design that allows for easy preventative maintenance, the C-Series is the most advanced ceiling lift available.

See page 53 for detailed specifications.

PRODUCT HIGHLIGHTS

- Most compact lift of its class which allows for at least 7" (18 cm) of additional lifting height
- Quick lifting speed to reduce patient transfer times
- Quick change batteries for reduced service time
- Audible low battery indicator and visual battery/charge level display
- Digital display that indicates number of lifts, battery levels, and lift status
- Auto shut-off when not in use to conserve battery life
- 80" (2.0 m) strap vertical movement allows you to easily lift from the floor
- Available Return to Charge and Constant Charge options
- Available with Omni-Charge constant charge technology

EMERGENCY PULL CORD

The red emergency cord disconnects power and immediately stops the lift. Pulling and holding the Emergency pull cord will lower the client safely in the event of malfunction.

MANUAL EMERGENCY LOWERING/RAISING DEVICE

Found on the side of the lift is a manual option operated by an allen key.

PNEUMATIC HAND CONTROLS

Prism Medical's pneumatic hand controls are completely waterproof and offer superior reliability.

DIGITAL READOUT

The display shows battery life, total lifts performed and total time in operation. This feature also allows the user to walk through the programming of several options. The diagnostic mode aids in troubleshooting.

INFRARED HAND CONTROL

In order to offer complete flexibility in operation of the C-Series lifts, Prism Medical offers optional controls via an Infrared handset.

CEILING LIFTS

C-300

CEILING LIFT

C-300 Ceiling Lift has been designed with needs of Residential Care users in mind. The C-300's technological innovation, compact size and rugged construction make the C-300 the most affordable Ceiling Lift available. Ideal for permanent, temporary or rental placements. It is easily used with fixed, ceiling-installed track, or temporary non-installed, portable track systems.

See page 54 for detailed specifications.

PRODUCT HIGHLIGHTS

- Incredibly compact (6.3" x 4.7")
- Transportable
- Safe working load capacity of 300 lbs.
- Lightest ceiling lift available weighing only 5.7 lbs.
- Detachable-swivel-tilt trolley permits simple, light portability between track locations
- Extended span carry-bar (20.5" or 520 mm) to enhance comfort for all clients
- Quick Release System for simple interchange of Carry Bars
- Affordability and low cost maintenance

ELECTRIC HAND CONTROLS

Prism Medical's electric hand control is available for the C-300.

C-1000

FIXED CEILING TRACK LIFT

Bariatric clients often exceed a lift's safe working load creating an unsafe working environment.

Prism Medical's C-1000 Bariatric Lift, the strongest ceiling lift in its class, makes it possible to safely lift or transfer clients of all sizes with dignity & respect.

See page 55 for detailed specifications.

PRODUCT HIGHLIGHTS

- Cycle Count
- Emergency Stop/Emergency Lower
- Four carry bar designs for maximum comfort & functionality
- Quick Release System for simple interchange of Carry Bars
- Available option for weigh scale
- Optional Constant Charge
- Tandem Lifting is possible on dual traverse gantry

CEILING LIFTS

ELECTRIC HAND CONTROLS

Prism Medical's electric hand control is available for the P-300.

P-300

PORTABLE LIFT

With its 300 lb. capacity and lightweight design (6.7 lb.) this product will meet the needs of even the most demanding environments. This device can be easily relocated to multiple rooms with little effort from the caregiver. This unit is designed to be used with Prism Medical's complete range of slings ensuring that regardless of the client's needs or environment, this product will address the lifting and handling issues encountered by today's caregiver.

See page 56 for detailed specifications.

PRODUCT HIGHLIGHTS

- Optional, swivel/tilt trolley and an extended span carry-bar for wide torso clients
- Easily used with fixed, ceiling-installed track or temporary non-installed, portable track systems
- Soft start/stop provides comfortable patient transfers
- Audio and visual low battery indicator
- Safety mechanisms: overspeed governor, built in overload protection, and slack strap sensor

P-440

PORTABLE LIFT

The P-440 solves many of the problems that make patient transfer complex or difficult. It is lightweight, portable, and designed to provide complete control for the caregiver. In addition, it offers a wide range of safety mechanisms to assure confidence throughout handling occasions. The P-440's robust design and 440 lbs (200 kg) weight capacity ensure that it can be used in the most demanding environments.

See page 57 for detailed specifications.

PRODUCT HIGHLIGHTS

- Lightweight and portable.
- Integral full-width carry bar with unique contoured shape.
- On-board controls.
- The P-440 is charged with a standard plug and socket.
- Safety mechanisms include an over-speed governor, built-in safety limits, slack strap sensor and emergency lowering.
- Patient safety is assured with positive locking latches, securing the sling each and every time.
- The P-440 offers a comfortable built-in ergonomic handle, allowing the caregiver to carry and transport with ease. The handle also doubles to allow for transfers through a door with no modifications required to the door header.

CEILING LIFTS

P-600

PORTABLE LIFT

The P-600 portable ceiling lift has a weight capacity of 600 lbs making it suitable for the institutional environment. The P-600 is specifically designed for environments where the demand for higher weight capacities is a reality. With the use of the optional cart, this lift can be moved from room to room lowering the initial investment for facilities. The innovative design allows the client to be lifted comfortably using the folding carry bar. The P-600 is designed with a full set of standard features including on-board controls and emergency lowering. Equipped with a digital display, the P-600 offers real-time feedback on battery life and total number of lifts performed.

See page 58 for detailed specifications.

P-600 ON-BOARD CONTROLS

On-board controls compliment a pneumatic hand control and provide additional control options for maneuvering the lift.

The digital display indicates battery life and offers a lift counter to indicate when preventative maintenance is required.

PRODUCT HIGHLIGHTS

- Integral full-width carry bar with unique contoured shape.
- On-board controls.
- The P-600 is charged with a standard plug and socket.
- Safety mechanisms include an over-speed governor, built-in safety limits, slack strap sensor and emergency lowering.
- Patient safety is assured with positive locking latches, securing the sling each and every time.
- The P-600 incorporates an articulating carry bar to allow it to sit safely and upright on a cart for easy transport.

PNEUMATIC HAND CONTROLS

Two button hand controls enable mobile lift control.
