

What We Offer

REVIEWS:

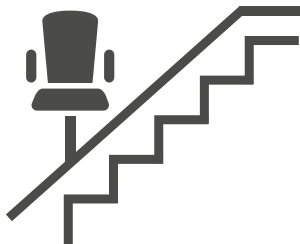

• Ramps

The area's leading builder of wooden ramps. We also install Aluminum modular ramps.

• Lifts

Offering safe and convenient access to your home and/or vehicle with stair, platform, incline & auto lifts.

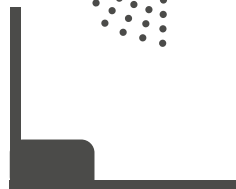

NEW!

The area's only company that offers ceiling mounted track lifts.

• Bathrooms

Providing complete accessible solutions such as:

- Barrier free showers
- Tub to shower conversions
- Grab bars
- Step-thru tub conversions
- Walk-in Tubs

"Great Service to our area!! Very Honest, friendly and helpful!" ~ Kristina O.

"If you want someone who goes the extra mile, they do superior work and care about their customers. They did our chair lift, scooter/wheelchair lift for the van and setup for our tub with grab bars, deck and ramp. They take pride in what they do and do their best to comply with your schedule. We would highly recommend coming here for all of your mobility needs!" ~ Penny G.

"Brandy did an amazing job for our family. He is very efficient, timely and makes sure you are getting what you actually need. His attention to detail is great too, from making sure things work well for you, through cleaning up afterward. Would recommend to anyone needing to make their home more accessible. Can't wait to get everything put back into the room and post some pics!" ~ Carrie R.

"After my wife had a stroke we had to have our house modified to her requirements and needs. We were fortunate enough to have Coulee Region Mobility with Brandy and his partner to complete this task. I cannot say enough about the quality and the professionalism of these two contractors. I am so impressed the way they went about their work, keeping us informed every step of the way. They were always punctual and did a full day's work. Their work was also top quality. We are very pleased with the outcome of the project. I would recommend these contractors without hesitation if you are requiring any work on your home." ~ John S.

"Contacted by company quickly. Extra effort to service as soon as possible. Professional and experienced combined for excellent results. Plan to continue having yearly maintenance." ~ Sue W..
